

VIOLET

VIOLET – modern pop appeal meets the heartbeat of the '80s.

Balancing emotion with stadium-sized hooks, the band delivers songs that instantly connect and truly come alive on stage. Catchy, moving, and perfectly fitting into today's line-ups, VIOLET are that rare act capable of making nostalgia feel alive without ever sounding dated.

Founded in 2019 and active since 2022, the band has already achieved significant milestones alongside the release of two LPs and one EP, steadily building momentum and continuing their rise.

VIOLET stands for authenticity and a genuine love for music – something every concertgoer can feel from the very first second.
